NUCLEAR REGULATORY COMMISSION
REGION I
2100 RENAISSANCE BOULEVARD, SUITE 100
KING OF PRUSSIA, PA 19406-2713

May 7, 2014

Docket No.: 03038199

License No.: 29-31396-01

Philip Bartley
Vice President, ESQ
Tetra Tech EC, Inc.
1000 The American Road
Morris Plains, NJ 07950

SUBJECT: NRC INSPECTION REPORT NO. 03038199/2014001, TETRA TECH EC, INC.

Dear Mr. Bartley:

On April 7 and 8, 2014, the U.S. Nuclear Regulatory Commission (NRC) completed an inspection of your temporary job site at the Hunters Point Naval Shipyard (HPNS) in San Francisco, California. The inspection examined activities under your license as they relate to safety and compliance with the Commission's regulations, and the conditions of your license. The inspector reviewed procedures and records, interviewed site personnel, and observed work activities related to Parcel C at HPNS. The inspection focused on the radiological safety programs and practices being implemented by Tetra Tech associated with the handling and remediation of potentially contaminated soil. The results of the inspection were discussed with you at the conclusion of the inspection. No violations were identified.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Regulations, Guidance and Communications**. The current Enforcement Policy is included on the NRC's website at www.nrc.gov; select **About NRC, Organizations & Functions; Office of Enforcement; Enforcement documents**; then **Enforcement Policy (Under 'Related Information')**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

P. Bartley
